

# Friends of Falun Gong Cartoon Contest

Falun Gong is an ancient Chinese meditation practice of mind and body that follows the principles of truthfulness, compassion, and forbearance. However, in China, practitioners who have broken no laws are subject to kidnapping by the police, imprisonment, forced labor, torture, and even live organ harvesting.

These crimes against humanity are committed by the Chinese Communist Party (CCP), and have continued for 18 years. Using propaganda and

business ties, the CCP has tried to silence world governments from criticizing this horrendous genocide.

The international community of human rights advocates have been taking action to bring an end to the persecution, but more help is needed in spreading the word.

Your objective: create a cartoon that helps raise awareness of Falun Gong and the persecution by the Chinese Communist Party.

## Prizes

<b>First place</b>	\$300
<b>Second place</b>	\$200
<b>Third place</b>	\$100
